

**EFTCO**

# European Federation of Tank Cleaning Organisations

[www.eftco.org](http://www.eftco.org)

*dear EFTCO Member and Partner*

In a 2023 summer with extreme weather events, we hope you anyhow can spend some time for summer holidays and recover.

Although we are in this summer holiday period, we want to give some updates about latest development within EFTCO. This to avoid missing any latest news

## **Next meeting of EFTCO Member in October 2023**

The invitations for our next meeting have been send out we are ready for your registration to our 2<sup>nd</sup> meeting in 2023, which is scheduled in Bordeaux/France October 11<sup>th</sup> and 12<sup>th</sup>.

## **ECLIC eECD 2.0**

ECLIC announced that the new eECD 2.0 solution is launched.

The electronic eECD's with a unique EFTCO QR code can be generated by all eECD licensed cleaning stations and the validity of the eECD can be checked by all stakeholders scanning the QR code. This eECD 2.0 project is the start of a complete new digital beginning whereby all stakeholders using the paper ECD's today, can prepare for the digital eECD 2.0 industry transition at their own pace. Please see also the memorandum about the EFTCO Cleaning Document eECD 2.0 published 11/07/2023 and available in EFTCO `News`.

ECLIC published an ECLIC eECD 2.0 tutorial intro movie which can be [viewed here](#)

This movie explains the new features of the electronic EFTCO Cleaning Document or eECD 2.0. In addition, it zooms in on how to check the validity of the electronic EFTCO Cleaning Document by scanning the EFTCO QR code.
